---

All, here is a pdf representation of the geophysics proposal and follow-up CPT.

Blue: seismic lines

Yellow: small backhoe trench/pothole areas

Pink: CPT/LIF lines

Green: areas needing to be defined for CPT/LIF

Beth –

It would be great to have the attached “bare earth” LIDAR loaded into one of the Trimble GPS units. It will help us locate features we may not be able to see with current vegetation.

I assume you are bringing at least two Trimbles with you from SERAS. Please confirm.

Thanks

Tom
